Mr. Michael Buckley, P.E.  
Director Technical Services  
Federal Emergency Management Agency  
Washington, DC 20472

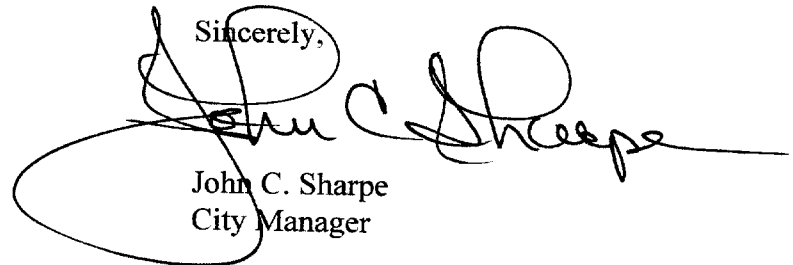

Dear Mr. Buckley:

Thank you again for conducting another on-site meeting in Columbia, South Carolina in reference to proposed Federal Insurance Rate Maps. The City of Cayce appreciates FEMA's concerns on these very important issues and its willingness to attempt to solve these issues on the local level.

The City of Cayce once again endorses the revised Federal Insurance Rate Maps as proposed and reviewed at the September 26, 2000 meeting held at Richland County. The city endorses the issuance of the "Letter of Final Determination" by FEMA so that these maps can be considered the official flood maps which may be used by the City of Cayce and Lexington County.

Thank you for your continued efforts in this most important matter.

Sincerely,

John C. Sharpe  
City Manager
